The Daily News.

Published every morning (Sundays excepted)
BY GEORGE T. HAMMON.
At 123 Thames Street.

MONDAY, SEPT. 5, 1880.

THE WEEKLY NEWS, of 23 inst., containing the conclusion of the *RE-UNION* REPORTS, also last week's paper containing the commencement of the same can be obtained at this office. Price for single copies three cents. A copy of both papers will be furnished for five cents.

Local Facts and Gossip.

Not many miles from this city, last Thursday, might have been seen a party of gentlemen "hunting" perhaps a dog, and they were of the "old man of Newport" variety, exceedingly heavy, and there were among them those that had crossed the Atlantic deep-sea, and an ex-Admiral, a man of no mean proportions. And they did make a chowder made of fish, and did not know. Now is time to pass this, when they were filled, one said: "Behold there is a Reporter here to proclaim our doings; come, let us run a race, and they did run, and paid, blow, and all that they did laugh, but who did first reach the goal, our informant with not.

The West Island House, near Seacombe Point, under the superintendence of Charles H. Ruggles, Esq., has become widely and deservedly known the present season. A legal correspondent of the *New York Times*, under date "West Island House, Little Compton, R. I., Aug. 23," gives the following results of several days' sport at that place:

"My brother (who accompanied me) and myself caught the following number of striped bass:

August 15,	16 bass, weighing	81 lb.
" 16,	20 bass, weighing	75 lb.
" 17,	16 bass, weighing	50 lb.
" 18,	22 bass, weighing	87 lb.
" 19,	19 bass, weighing	80 lb.
" 20,	6 bass, weighing	36 lb.
" 22,	37 bass, weighing	145 lb.
" 23,	33 bass, weighing	116 lb.

Total, 189, 1,690 lb. The thirty-three on the 23d were caught by me alone, in about five hours. I think I cannot call this a record, but it is a very good one. The bass do not include about thirty bluefish, which were taken in the same way, and averaged about 6 lb. each.

To those who prefer black fishing, they may be procured in abundance. The advantages of bass fishing at the Island above all other places I have visited is that most of it is done standing upon the rocks, and if you desire it, experienced men will be furnished to bait your hooks and land your fish, and among them I take great pleasure in naming "David" and "Mishel," but for whose valuable aid I should not have been so successful.

The following from the *New Bedford Mercury* will apply admirably to this meridian:

One of the finest summer seasons we can recall has come and gone, as if with miraculous speed, and is already numbered among the things of the past. "The oldest inhabitant" agrees he has rarely observed a season when the sky has been so uniformly bright and free from clouds.

This lack of moisture has made this summer one of the best on record for the enjoyment of sea-bathing, and the watering-places have been flooded with visitors as well as water. The heat of summer has been tempered by the purity and clearness of autumnal temperature, hence, the season has been remarkably healthy.

We have had more than two months of solid working days, good for walking or driving on beaches or in the woods, and the number of excursions has been legion. The ladies have lost fewer bonnets and dresses by bad weather than common, though the present fashion of the former article affords them an excellent opportunity for being thoroughly tanned.

In the whole, we cannot remember a finer summer season.

We are informed that the excursion of Aqueduct Engine Co. No. 3 to Rocky Point, will take place on Tuesday next week. The steamer *Cannibal* has been engaged for the occasion, as has also "Gilmore's" Cornet Band. We feel confident that there will be a large party.

If the weather is favorable this evening, there will be a grand turning of carriages on the First and Second beaches.

FEARFUL ACCIDENT TO AN AERONAUT.

On Monday evening Mr. Hall ascended in a balloon from the cricket-ground, Newcastle-on-Tyne, in the presence of a large concourse of spectators. The ascent took place at 10 minutes to 7, and a quarter past that hour, the balloon was seen to descend rapidly in the neighborhood of Bladen about seven miles from Newcastle, and fell in a clover field. The grappling irons, however, did not keep hold of the ground, and some of the ballast having upset, the balloon suddenly rose again, and Mr. Hall being about to alight from the car at the time the balloon rose, his feet were caught in the ropes, and he was whirled suddenly into the air. For a moment he hung with his head downwards, when the ropes got disentangled, and he fell a distance it is computed, of 120 feet. A farmer and his son who were in a field close by, came to his assistance, and he was found to be sensible, but he soon after became unconscious. He was removed to Southsea, the residence of Mr. H. L. Pattison, where he was immediately attended by a surgeon, and though he fell the fearful distance mentioned, it is hoped he will recover. After Mr. Hall was thrown out, the balloon ascended a great height, and was last seen drifting out to the German Ocean. A little dog belonging to the aeronaut was taken up in the car.—*London Times*.

John La Mountain, who ascended in his balloon from Saratoga Thursday evening, at 6:12 o'clock, came down on the farm of Mr. Wiley, of Saxton's River, near Belkows Falls, Vt., at 8 o'clock, p. m. The distance is nearly one hundred miles.

"Wife," said a man looking for a boot-jack, "I have places where I keep my things, and you ought to know it." "Yes," said she, "I ought to know where you keep your late hours but I don't."

In the Superior Court, sitting at New London, Ct., on Wednesday last, a jury rendered a verdict for the plaintiffs in a slander suit, assessing damages at three cents.

A Hartford paper thinks it is "exceedingly bad husbandry to harrow up the feelings of your wife."

A LOST CHILD STARVED TO DEATH IN THE WOODS. The *New York Times* of the 2d inst. published in Lima, Allen county, Ohio, relates the melancholy particulars of the loss in the forest, four miles from the town, of a little girl, aged six years, of Mr. King, whose fate was not known for many days, until her dead body was found. The paper says:—

She went on Wednesday fortnight last to visit her neighbors, and while there went out with her children to carry some water where their father was working. Some difficulty occurred between the children, and the little girl was caused to go back, and turned to go to the neighbor's house full of vexation at its treatment. Thinking, doubtless, more about the childish wrongs than about the father's, she wandered, it was said, on moodily, and though in sight of the house where her mother was, took the wrong path, and soon became lost in the dense woods. Two hours after the children it went out, with returned, but it was not with them. It was lost. Day and night it was hunted for nine days, and on Friday last it was found within two miles from where it had first strayed, and dead, lying on its belly over two logs, as if it had fallen and was too weak to rise again.

The people of Putnam county, from all parts of the county, turned out day after day to search for it, and traversed the whole woods for eight or nine miles around, during the whole nine days, by four or five hundred per day, but without avail. It appears that where it was had been overlooked, and the search extended too far, in the supposition that it had gone farther.

Its little bonnet was hung on a limb, and also its frock and clothes; perhaps the little one thought of going to bed, or more probably, hung up its clothes to dry after the heavy storm of Thursday night before it was found. It had built playhouses to while away its loneliness in the wild woods and had picked off the fallen timbers for yards the moss for sustenance. It had waited for its mother and father's coming to take it home for many days, and had played in the hope of their coming; but they could not find it, though so near to them. When found it had evidently died within a few hours, the body had undergone no putrefaction. The poor mother we learn has nearly lost her reason—and the wonder!

MELANCHOLY ACCIDENT.—YACHT UPSET BY A GALE.—By telegraph we have learned that on Wednesday night a yacht, was upset in the Sound, near New Rochelle, and that two young ladies were drowned. The *New York Evening Post* gives the following particulars:

The circumstances of this melancholy affair, so far as we have learned them, are as follows:

Mr. Roosevelt, a nephew, we believe, of Judge Roosevelt, went to Throggs Neck yesterday with his yacht, and took the young ladies on an excursion. The weather was delightful, and everything passed pleasantly until about eight o'clock in the evening, when, as our readers will remember, a sudden and violent gale arose. Mr. Roosevelt was rowing, and the young ladies were in the cabin.

The gale increased to such fury that Mr. Roosevelt was unable to contend with it, and when within about two hundred feet of the shore, his yacht was capsized, and the ladies in the small cabin, unable to escape from their prison, were drowned. The darkness and violence of the squall rendered aid impossible.

The following is from our ship news reporter:

During the squall last evening the yacht *Edda*, owned by Abraham Roosevelt, in the Sound, near New Rochelle, was caught by the wind and capsized, and two ladies met a watery grave.

They were Miss Julia Waterbury, daughter of Lawrence Waterbury of this city, and a Miss Craven. One lady of the party was fortunately saved, whose name we could not ascertain.

From Havana.

NEW YORK, Sept. 2.—The steamer *Cabawba*, from Havana, 30th ult., arrived to-day. She made the run from New Orleans in six days and eleven hours, the quickest time on record, via Havana.—She left the latter port on the 19th ult.

The money market at Havana continued very stringent.

A party of Americans had obtained permission to import cattle from Texas, for six months, free of duty.

Sugar market very dull; stock 246,000 boxes; freights had slightly improved. There were few American vessels in port. The health of Havana was improving.

The *Cabawba* brings \$106,000 in specie. Dishonest Postmaster Arrested.

BALTIMORE, Sept. 2.—Philip Reed, Postmaster of Poolesville, has been arrested on the charge of opening and embezzling the mails. He was examined before Commissioner Hounn to-day, and held in \$5000 to answer.

MURDER.

LOUISVILLE, Sept. 2.—In a d. kill at Hopkinsville, Ky., between W. W. Weston and Capt. Jas. Jackson, the former was shot and instantly killed.

A Swindler Arrested.

WASHINGTON, Sept. 2.—The man who recently brought from Philadelphia to New York fifteen young ladies, under pretence of taking them South as school and music teachers, and then robbed them of their money and baggage, was arrested here tonight by Chief of Police Goddard and Lieut. McHenry. He was recognized as Hiram P. Leslie, heretofore temporarily employed in the Patent Office. Some of our own citizens had been swindled by him. His valise contained a large number of letters from various parts of the country, the contents of some of which showed that he had traveled in the South and was extensively engaged in dishonest schemes. He has a wife living in Washington. Two large traveling trunks, claimed by him, are at the express office, and are supposed to contain many valuables belonging to his victims. He has been committed to jail to await a requisition from the Governor of New York.

Steamer Burned.

NEW ORLEANS, Sept. 1.—Steamer *Messenger*, while on her way from Memphis to this city, caught fire and was run ashore and scuttled, when she sunk near Bayou Sarr. All the passengers were saved.

A donkey's occupation is to show his clothes; and if they could but walk themselves, they would save him the labor and do his work as well as himself.

LEARNING THE TRADE.—A young Englishman, who has just arrived here, is a apprentice in a printing office to learn the trade. When learning the boxes in the case, he asked the former "What is the name of the man who has been here?" and the latter, after having studied over the case, he said: "The name of the man who has been here is 'John Bull'." The juvenile "John Bull" did so, and got all right except e and l.

"Well," replied John, "I have asked the fellow (pointing to George) where he was, and he pointed his finger to hell!" The foreman gave George a sharp look, and he grinned maliciously.

SOMEWHAT HEAVY.—Lieut. Fess, the architect and engineer in charge of the Washington Monument, has made an official report to the "Society," which he says, that when raised to the height of 600 feet, the entire weight of the shaft, and foundation, will be 70,000 tons. The weight of the structure in its present condition is 40,000 tons; it has been unable to detect any appearance of settling, or inclination of insecurity. By scientific calculations, he has arrived at the conclusion that the weight alone of the monument, at its full height, would offer a resistance nearly eight times greater than the overhanging effort of the heaviest tempest to which it would probably ever be exposed.

The ladies in Saratoga paint this reason: it is all the rage. Not the old, faded, those whose beauty is on the wane, but the young, also; not rouge, laid on with delicate fingers, and with thin hardly discernible to the eye, but laid on with a heavy hand, and with an openness that is worthy of a better cause. In the night the complexion really is dazzling, and the face wears a hue almost angelic in brilliancy. But in the morning—ah! the face looks boiled, and resembles a white crumpled side of leather, cracked by the cold wet her. So says a letter-writer who professes to know.

J. G. Bunting, of London, has taken out a patent for what he calls a "Mechanical Horse Tamer." It consists of a post driven into the ground, and having at its upper end a stout pin, to which are secured two horizontal poles. Upon the outer ends of these are attached axle-arms to carry heavy wheels, and they are arranged to form a part of a circle in which the horse to be tamed is fastened by suitable straps. He is unable to plunge by the weight of the wheels, or lie down on account of the under straps, and he is prevented from running backward by a prop which is fixed to the hind pole.

A RHODE ISLANDER IN THE SLAVE TRADE.—The *St. Augustine (Fla.) Examiner* asserts positively that cargoes of African negroes are constantly landed in the United States, and publishes a copy of a written agreement entered into between a Rhode Island captain, Miller F. Wickham, commanding the brig *Favorite*, and a firm on the African coast, for the delivery of eighty "fair and merchantable negroes." The *Examiner* adds, that this cargo has been safely landed on the Southern coast, and the negroes found a ready market.

Edward Kelley and John Hays met in a liquor store in New York on Wednesday evening, when Kelly invited Hays to drink, and on the invitation being declined, offered to fight. Hays, however, refused either to drink or fight, and retreated into the street. Kelly followed and pressed closely upon Hays, who thereupon drew a pistol and fired, inflicting a severe if not fatal wound upon Kelly.

The machinists at Laporte and Adrian of the Michigan Southern Railroad, struck on Thursday, and refused to allow any firing, but the mail on and engine to run. Passengers who left Chicago Thursday morning returned the same night. The cause of the strike was the inability or refusal of the road to pay back notes.

"A Sufferer" writes to the *New York Herald* from Saratoga Springs, warning travellers not to follow the directions of a card upon their chamber doors, which advises them to order carriages at the office of the hotel instead of from the stands. He says that by so doing they will have to pay a double for poorer fare.

Within the limits of New York and Kings counties there are 402 churches, seating comfortably 335,000 persons. The aggregate of the salaries of the pastors of these churches amount to \$520,000, or an average of about \$1269 per annum each.

Mr. Robert Ross and his daughter, of East Franklin, Vt., were recently poisoned by drinking lead bug poison, supposing it to be beer. They survived in intense agony for twelve days, when they both died and were buried in the same grave.

All the prophets (particularly in petitions) will have it that the recent autumn boronitis demonstrations portend something frightful. "The red sky is certainly a fore-runner of blood."

Vice President Breckinridge has written a letter, declining to be considered a candidate for the Presidency, preferring to be elected to the Senate, as he expects to be, from Kentucky.

The arrivals of cotton at Providence from September 1, 1855, to September 1, 1859, were 130,189 bales. This is full one-sixth of the amount of the crop taken in the country.

Great Indian Remedy
FOR FEMALES.

DR. MATTHEWS' INDIAN PAIN-EXPELLER is a new and useful medicine, directed EXPRESSLY FOR FEMALES. It is prepared from an Indian plant, which has been used by the natives for the same purpose for three hundred years, and is now being introduced to the public. A knowledge of this wonderful plant was obtained from the late SKEANADOGAN, an Onondaga Chief, who lived near Syracuse, N. Y., and was a great hunter. It is a simple and safe remedy, with full directions for using, and is warranted to cure all the diseases of the MONTHLY SICKNESS, such as PAINFUL PERIODS, BRUISES, and all other irregularities have been cured by it. This may seem incredible, but it is a FACT, and the price will be REMUNERATED. It is sold in ANY CASE THIS PRICE WILL BE RETURNED. It is a day or two before the monthly period, and is therefore a most valuable remedy for those who are unable to attend to their duties, and is a most valuable remedy for those who are unable to attend to their duties, and is a most valuable remedy for those who are unable to attend to their duties.

St. Louis, Sept. 2. The overland mail, with San Francisco dates of the 12th ult., has arrived.

W. F. Wilkins, a District Attorney, of Sutters Co., and a candidate for the Legislature, was shot on the 24th of August, by Judge May, of Yuba county, whose daughter Wilkins had seduced.

Senator Broderick addressed the largest meeting ever assembled at Sacramento, on the 9th, making a full exposure of the gain and sale arrangements at the late Senatorial election.

The convention in Carsona Valley had framed a constitution for a Provisional Government, which declared Carson Valley independent of Utah, and gives the name of Nevada to the Territory.

Victoria dates are to Aug. 6. The Island of San Juan, between Vancouver's Island and the mainland, claimed by our government as part of Washington Territory, had been occupied by 50 U. S. troops, by order of Gen. Harney.

It was unofficially stated at Victoria that the matter would be compromised by the joint occupancy of the Island, until the British and United States governments could be advised of the existing state of affairs.

The Fraser River Mining News is encouraging: \$75,000 in gold had reached Victoria within a fortnight.

Advices from Oregon state that the Plover Indians were harassing Lieut. Nullen's wagon road expedition, destroying the mile posts and burning the grass at all the camping grounds.

Fatal Steam Boiler Explosion.
NEW YORK, Sept. 3. A terrible catastrophe happened yesterday afternoon at No. 106 Goerick street. About 4 o'clock a steam-boiler located on the premises, and to which were occupied by John Ranch, as an iron foundry, exploded, completely demolishing the building, and burying all hands employed in it, some fourteen in number, in the ruins. One named James Shaw, was killed, while five others were more or less injured.

THE HERALD OF TRUTH
CONTAINS
FIVE
SERMONS
BY
DISTINGUISHED
CLERGYMEN
OF THE
EVANGELICAL
CHURCHES.

THE first number of a new religious pa-
per, entitled, "HERALD OF TRUTH," will
be issued on Friday, the 2nd of September,
from the Office of publication, No. 136, Na-
sau Street, New York. Rev. John W. Ma-
jor, of the Presbyterian Church, Editor.
The object of the paper will be the dissemination
of religious truth, by the publication
of SERMONS BY DISTINGUISHED CLERGYMEN
of all the Evangelical Denominations, both
in this country and Europe, and four or five
Sermons will appear in each number. The
first number will be a large one, of 48 pages,
and ready for binding. The terms, \$2.00
per annum; 5 copies \$8.00; 10 copies \$15.00;
to Clergymen \$1.00 per annum; single copies
5 cents. Persons wishing the paper sent to
them by mail, can remit the subscription price
for six or twelve months, directly to the office
of publication. Those preferring to get it
weekly, at the News Stands, can do so by giving
the News Dealer two or three days' notice.
The first number will contain a full exposition
of the object and aim of the publication, and
it is desirable that as many as possible, should
see, at least, that number. A specimen num-
ber has been issued and sent to the Press, and
it has been extensively and favorably noticed
in all parts of the country. Agents wanted
in every place to solicit subscribers for the pa-
per.

CHINESE AND JAPANESE GOODS.
PLEASE bear in mind that we close in a
few days, in this city, and that this may be
the only chance you, the citizens and
traders of New York, may ever meet again.
It is now well understood and admitted that
this is the largest and most extensive collec-
tion of Chinese and Japanese goods in the
United States; and any of those who pur-
chase from us, and who are judges of this
class of goods, and who have well tried New
York and elsewhere, all admit and come to
the conclusion that never before was there
such an opportunity offered as the present
one to get goods of this class at such a low
figure. Remember, no Second Price.
DR. J. A. RODOLFE, Sole Agent for
Hon-Shong, Canton, China and San Fran-
cisco.
N.B.—Goods purchased for transit will be
carefully packed in their original cases.
Store corner East Tenth and Prospect Hill
streets.

HAIR RESTORATIVE.**

Says the Rev. Louis (Mo.) Demerout: Re-
ceive, we publish a letter to Dr. W. O. of this
city, from a gentleman in Maine, which
speaks glowingly of the superior merits of
his hair tonic. Such evidence must have
its effect, when coming from a reliable source.
If certificates are guarantees of truth, the Dr.
needs no eulogiums, nor useless puffery
from the press.

BATH, MAINE, Jan. 29, 1859.
Professor O. J. Wood & Co.

Having my attention called
a few months since to the highly beneficial
effects of your hair restorative, I was in-
duced to make application of it upon my own
hair, which had become quite grey, probably
one-third white; my whiskers were of same
character. Some three months since I pro-
cured a bottle of your hair restorative, and
used it. I soon found it was proving what I
had wished, and in about a week I have
seen proceared another bottle, which I have
used some. I can not certify to the world
that the grey or white hair has totally
disappeared, both on my head and face, and
